Algeria – a promising market

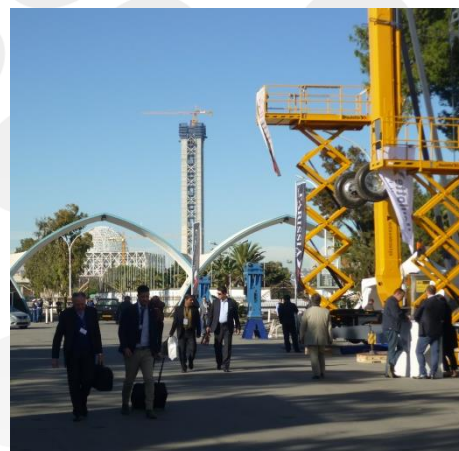

Founded in 2003, SITP has developed into one of the region's most important trade fairs for construction machinery and public works. Solid numbers of exhibitors and exhibition area accompanied by growing internationality of both exhibitors and visitors prove the relevance of SITP for professionals.

Country pavilions from China, France, Germany, and Italy contribute to a vivid appearance of the whole industry and enjoy great popularity among the visitors. According to a current survey IMAG's exhibitors are content with their participation and most of them definitely plan to participate again in 2017's edition.

Next SITP will take place in November 22 – 26, 2017.

Visitors of SITP meet manufacturers and dealers of these products:

- Drilling, ramming and drawing equipment, sewer construction and maintenance systems
- Compressors, compressed air and hydraulic tools
- Compacting machinery for earthworks and road building
- Machinery and facilities for concrete, bitumen, waterway and railway line construction and for road repair and maintenance
- Construction vehicles, Construction equipment and tools
- Building site facilities
- Machinery and installations for the cement, limestone, plaster, sand, clay, gravel and ballast industries
- Machinery and installations for the recycling of building materials
- Machinery and installations for the manufacture of cement, limestone and plaster-bound construction elements
- Lifts, elevators and escalators
- Installations, machinery and equipment for obtaining and processing stone and concrete
